A screenshot of the 'Request a Song' form in the FreeBeats app. The form has a dark background with yellow text and icons. At the top, there is a yellow arrow icon and the text 'Request a Song' and 'Suggest songs you'd like to see on FreeBeats'. Below this are three input fields: 'Song Title *', 'Artist Name *', and 'Additional Message (Optional)'. Each field has a white hand icon pointing to it. The 'Song Title' field has the placeholder text 'Enter song title...'. The 'Artist Name' field has the placeholder text 'Enter artist name...'. The 'Additional Message' field has the placeholder text 'Tell us why you'd like this song added...'. At the bottom of the form are two buttons: a yellow 'Submit Request' button and a grey 'Cancel' button. Below the form is a section titled 'Request Guidelines' with four bullet points: '• Make sure the song is not already in our library', '• Requests are reviewed by our admin team', '• You can track your request status in "View My Requests"', and '• Approved songs will be added to the platform'.
